BUILDING BRIGHTER FUTURES
Geyer Family YMCA of the YMCA of Montclair Preschool Readiness Program
Prepare your child for Preschool and continued learning. The YMCA’s Preschool Readiness Program provides a stimulating environment for children ages 2-4 to play and learn while developing the physical, verbal, and social skills they’ll need to start school ready to succeed.

Each class consists of developmentally appropriate activities based upon class age. These activities include process art, hands-on science, small motor and gross motor skill building, interactive circle time, and much more. Classes offer consistency through 2, 3, and 4 day registration options and small staff to child ratios.

TIME FOR TWOS
Children must be 2 years old by Oct 1.
For most children this is their first experience in a group without a parent. Focusing on socialization, verbal communication skills and positive social behavior, children will participate in group free play, art, music, story time and physical activities.

THRILLS FOR THREES
Children must be 3 years old by Oct 1.
Children are assisted with socialization and are encouraged to grow through hands-on creative art projects, games, music, and play. Children will be able to master various pre-kindergarten skills (colors, shapes, group play, name recognition, and cooperation).

MORE FOR FOURS
Children must be 4 years old by Oct 1.
Expanding the skills developed in Thrills for Threes, this program encourages creativity, fine motor and cognitive skills, helping children become confident and well prepared to meet the challenges of preschool.

**AQUATICS STAGE DESCRIPTIONS**

**THE CURRICULUM HAS CHANGED**
The Montclair YMCA has embraced the updated swim curriculum offered by the YMCA of the USA. The program focuses on water safety skills as the foundation for all ages; once mastered, stroke development and techniques are introduced. The skills and topics taught in each stage are based on the developmental milestones of youth.

The most noticeable change is the name of the Stages which have been adjusted to represent the skills taught. Also changed are the ages for each of those Stages to allow more progression through each level.

**SOME THINGS REMAIN THE SAME**
The Montclair YMCA Aquatics staff remains dedicated to the mission of ensuring every swimmer develops a comfort level in the water and recognizes their safety and that of the other swimmers is the highest priority. Each student is encouraged to learn and practice new skills in group and/or private lessons, but allowed to progress at their own pace.

The YMCA is committed to helping youth, adults and seniors develop valuable skills and a lifetime love of the water.

**A / WATER DISCOVERY**
Parents and caregivers accompany their child in Stage A. Water Discovery introduces infants and toddlers to the aquatic environment through exploration and encourages them to enjoy themselves while learning about the water.

**B / WATER EXPLORATION**
A parent or caregiver accompanies the child in Stage B. Water Exploration focuses on exploring body positions, blowing bubbles, and fundamental safety and aquatic skills.

**B+ / WATER EXPLORATION**
B+ starts out as a Parent/Child Stage B Class but ends as a Child Only Stage 1 Class. The child will take turns going with the parent and then with one of the instructors. The goal is to slowly have the parent participation phased out.

**1 / WATER ACCLIMATION**
Water Acclimation increases students’ comfort with underwater exploration and introduces basic self-rescue skills performed with assistance. In this child only class, instructors will help develop your child’s basic skills to propel and glide through the water with assistance; teach participants about basic water safety and how to be responsible for their own decisions to help keep them safe.

**2 / WATER MOVEMENT**
In the Water Movement Stage, students focus on forward movement in the water and basic self-rescue skills performed independently. Milestones worked on in this stage are: explore the aquatic environment using personal skills without instructor help; develop basic skills to propel and glide through the water without instructor help and about basic water safety and how to be responsible for their own decisions to help keep them safe.

**3 / WATER STAMINA**
The Water Stamina Stage develops intermediate self-rescue skills performed at longer distances than in previous stages. Milestones worked on in this stage include: integrating arm action, leg action and rhythmic breathing in back and front glides; developing forward movement on the front and back and practicing skills and safety techniques in deep water.

**4 / STROKE INTRODUCTION**
Students in stage 4 develop stroke technique in front crawl and back crawl and learn the breaststroke kick and butterfly kick. Water safety is reinforced through treading water and elementary backstroke.

**5 / STROKE DEVELOPMENT**
Students in Stage 5 work on stroke technique and learn all major competitive strokes. The emphasis on water safety continues through treading water and sidestroke.

**6 / STROKE MECHANICS**
In Stage 6, students refine stroke technique on all major competitive strokes, learn about competitive swimming, and discover how to incorporate swimming into a healthy lifestyle.

AQUATICS PRIVATE AND SEMI-PRIVATE LESSONS
3–9 years

Children who want to enhance specific water skills, or those with busy family schedules can take Private or Semi-Private swim lessons at the Geyer Family YMCA. Both options offer seven classes per session and are scheduled directly with the Geyer Aquatics Department, allowing the student flexibility on timing.

Private lessons offer a one-to-one instructor/student ratio, with personalized attention targeting the student’s specific needs. The individual attention provides enthusiastic swimmers the opportunity to brush up on previously learned skills or master new ones in short order.

Sometimes it’s better with a buddy! Semi-private lessons are for two children working with one instructor where they can make significant progress in this smaller class setting. To ensure both students realize maximum benefits, they must be at the same swim level. If only one student attends a scheduled Semi-Private class, it counts as a class for the absent student as well; a private make-up class will not be offered.

Classes per session: 6 / Class Length: 30 minutes / Membership Required
Last week of session is the make-up week in case one of the 6 lessons is missed.

Private Lessons: $210 for 6 lessons
Semi-Private Lessons: $298 ($149 each child) for 6 lessons
All private and semi-private lessons are 30 minutes.
